

The 6th Nordic course on LUTD and urodynamics:

SAVE THE DATE:

Stockholm, *Postponed to September 23-24, 2022*

Lower urinary tract disorders: Idiopathic or neurogenic – does it matter?

Basic urodynamics,
invasive and non-invasive

LUTD – work up and differential
diagnoses - not only prostatic
obstruction!

NLUTD – work up and differential diagnoses
depending on neurological background

- ✓ Can we identify occult neurourology?
- ✓ Dysfunctional voiding
- ✓ Rare conditions
- ✓ Associated conditions to be aware of

Treatment options and nightmare cases
