

Danish Cancer Research Days 2025

28 - 29 August

Call for Abstracts

Deadline 4 April 2025 at 12:00 PM

Danish Cancer Research Days brings together researchers, clinicians, patients and policy makers from across Denmark every year at the largest Danish cancer conference. Since 2018, Danish Cancer Research Days has been a key platform within a nationwide initiative, where DMCG.dk and DCCC collaborate to enhance knowledge dissemination and expedite the translation of research into clinical practice. Once again this year, we aim to highlight the breadth and scientific excellence of current Danish cancer research.

We invite all interested researchers from both translational and clinical research, across scientific methods, specialties and disciplines, to submit abstracts on research projects, clinical trials or other research activities related to cancer.

A unique opportunity to present research findings and strengthen scientific networks

The conference's poster session is structured as moderated walks, where presenters have the opportunity to deliver an oral summary of their research and engage in discussions with attendees.

This format provides a valuable platform for scientific exchange and networking. If your abstract is accepted, you will take an active role in the poster session, offering an excellent opportunity to present and discuss your research with experts from diverse disciplines across the country.

Categories

We call for abstracts within the entire cancer field. The categories in the submission form are as follows; please choose the most fitting category.

- Basic and translational cancer research
- Screening and early diagnostics
- Personalised medicine, biomarkers and diagnostics
- Clinical trials
- Morbidity, late effects and rehabilitation
- Patient involvement
- Palliation and psychosocial support
- Clinical epidemiology and database research

Selection of abstracts

The submitted abstracts will be evaluated by a multidisciplinary judging committee. Up to 110 posters will be presented at the conference, and the selection of abstracts is based on a comprehensive assessment of:

- Relevance to cancer research and generalizability
- Scientific quality and impact of the findings
- Innovation, future perspectives, and national significance

Priority will be given to clinical studies with results, though submissions on ongoing studies and clinical protocols are also encouraged. Among the submitted abstracts, seven promising new researchers will be selected to present their research on stage during the conference.

Danish Cancer Research Days 2025

28 - 29 August

Abstract submission

You can submit your abstract via the form: [Call for Abstracts 2025](#)

It is not an option to save the content whilst working on the form, so please prepare all information prior to filling in the form.

The information you submit in the form will be used to generate an electronic abstract book, which will be distributed at the conference and published online on DCCC's website. To ensure clarity and consistency, we strongly encourage precise formatting, accurate spelling, and correct titles. For reference, please consult [Abstract book 2024](#).

The form is structured as shown below

- **Abstract title:** Max 250 characters including spaces.
- **Category:** Choose the most fitting of the given categories.
- **Presenting author:** Please enter your full name as follows: e.g. Peter Sindbjerg Petersen
- **Presenting author's email:** Only one abstract is allowed per presenting author. Please enter the email address, where we can best reach you.
- **Presenting author's title:** E.g. PhD student, professor.
- **Presenting author's affiliation:** Department, Institution.
- **All authors and affiliation, including presenting author:** Please list all authors (please include presenting author again) with last name followed by initials, followed by department and institution (e.g. Pedersen, P.S., Department of Nuclear Medicine, Aarhus University Hospital). If two or more authors share the same affiliation, please use numbering.
If you have any doubts, please consult the [Abstract book 2024](#)
- **Abstract text:** Please structure as follows and please include these headlines in the text: Introduction | Materials and Methods | Results | Conclusions. Max. 2000 characters including spaces.

It is not possible to upload tables and figures in the abstract.

The presenting author is responsible for presenting the poster. Only one abstract per presenting author is allowed.

Abstracts and posters can be made and presented in either Danish or English according to your preference.

Deadline for abstract submission and notification

We request that you submit your abstract through the link above no later than 4 April 2025 at 12:00 PM.

All authors/applicants will receive a written notification once the evaluation process is complete, no later than 16 May 2025. The notification will be sent to the email address provided in the submission form.

If your abstract is accepted, you will receive further details regarding this year's poster session. Please note that all accepted abstracts must be presented as a poster at the conference, and the poster must be available on both conference days.

Separate information will be sent to those selected for an on-stage presentation.

Registration for the conference

Please note that submitting an abstract and having it accepted does not constitute registration for the conference. [Conference registration opens 6 May 2025](#).

Questions

If you have any questions that are not addressed in the [FAQ](#), please contact us at dccc.info@dccc.dk.
